Play without subscribing

Committing to things is so 2015. Browse podcasts and hit play on episodes that look interesting, no strings attached.

Episode Search

Trying to find your favorite guest on that one amazing episode? Looking for your pet topic but confronted with hundreds of shows to sift through? Episode search to the rescue!

Up Next Syncing

Have you built the perfect list of shows to play on your phone? Wouldn't it be nice if they were all there, ready to go, on your PC at work? How about the tablet sitting on your coffee table? Pocket Casts 7 has you covered.

Improved Discovery

With so many new podcasts launching daily, how do you find your next obsession? We've invested heavily in curation to make discovery easy. Our best algorithms teamed up with our best people to bring you the best podcasts.

Streamlined Experience

Everything is easier in Pocket Casts 7. We've spent months fine-tuning the app so that it gets out of the way and lets you seamlessly enjoy your favorite podcasts.

So much more

New archiving features. Playback effects while streaming. Enhanced Apple Watch support. Siri Shortcuts. Listening history. Syncing improvements. Season and episode numbering support. Almost everything that could be improved has been to take Pocket Casts 7 to the next level.
